

## **Sample Classroom Arrangement**

### **Week 7**

In this week's readings, you learned about classroom organization and how important it is for positive behavior supports for your students. For this assignment, you will create a "Sample Classroom Arrangement." You will construct a classroom model much like the one designed on page 255 of the textbook. In addition, you will describe the model and its functions. This assignment should be 2 to 3 pages of text and a classroom arrangement model.
