

Week 2 Discussion Board

At this point in the course, you are just learning about educating students through positive behavior interventions and supports. Dr. Lusk and your peers understand that we are all in the learning process of effectively educating students through positivity. In your professional opinion, please identify one positive strategy for each exceptionality you would use to educate a student with the following diagnosis:

NOTE: Descriptions of these exceptionalities are delineated in chapter 1 of your readings and you may not use the same strategy as your peers. You are welcome to use scenarios or examples to help explain your strategies.

1.
 - a. attention-deficit hyperactivity disorder
 - b. major depressive disorder
 - c. dysthymic disorder
 - d. generalized anxiety disorder
 - e. social phobia
 - f. oppositional defiant disorder
 - g. conduct disorder
 - h. substance abuse disorders
 - i. anorexia
 - j. bulimia
 - k. binge eating
